Definition Essay

A definition essay defines a certain person, place, or thing, through the duration of the text. Formal definitions contain three parts: 1.) the term to be defined, 2.) the general class to which the term belongs, and 3.) the things that make the term different from all other items in the general class to which the term belongs. All three of these parts should be in a definition essay. Mainly, definitions essays define by comparison or examples.

I. Introduction: *Start broadly and end narrowly.* *Introductions aim to introduce the topic without giving too much away in the beginning. They end narrowly by concluding with the thesis statements, which is a preview for the rest of the paper.*
