Internship Locations

Students in the Department of Behavioral Sciences have worked in a wide variety of agencies all over the Lowcountry since 1996. Placement sites have included the following:

**Callen-Lacy Center for Children** (Community Prevention Services)
Serves as an emergency shelter for children from infancy through adolescence
http://cydc.org/our-programs/callen-lacey-center/

**Camp Happy Days**
http://www.camphappydays.org/contact.html

**Coastal Center**
Services individuals with severe disabilities and special needs. Special need individuals who are dual diagnosed.

A residential program for children with behavior disorders
http://windwoodfarm.org/

Many of these placements continue to be active internship sites. Possible sites are always changing due to varying needs at the agencies. When making an application for an internship, students are asked to indicate a variety of populations they are interested in working with. Department faculty then work to place students at appropriate locations. If a student has an interest in working at a particular agency not listed above or a population not indicated on the application form, they are asked to contact the Internship Coordinator, Dr. Jeffery Gray at 863-7326 or jgray@csuniv.edu.
